At about 22:10 on 1 October a broadcast in Ukrainian was heard in progress on approximately 6500 kilocycles which included the following announcement:

"Listen, listen; listen to us, listen to us. This is the Ukrainian Radio Station 'Freedom to Nations, Freedom to People'. Listen to us daily on the shortwave of 44 meters, corresponding to 6.75 megacycles at 23:00 western European time. Our transmissions are broadcast in the languages of all the enslaved people under the Communist yoke. Glory to the Ukraine. Long live the insurgent army."

This announcement was repeated three times after which the transmitter suddenly went off the air.
